# 1. Introduction

---

**ONECRM** is a multi-tenant customer relationship management platform built for education and study-abroad organisations. It unifies lead generation, student application pipelines, visa tracking, agency partner management, HR operations, and self-service portals in one system.

ONECRM sits in the **ApplyUniNow** ecosystem and is delivered by **AUN Tech Consulting**.

## 1.1 What you can do with ONECRM

- Capture, score, and convert marketing leads
- Manage student profiles, university applications, documents, offers, fees, and visas
- Onboard agency partners, track referrals, and calculate commissions
- Run HR processes: employees, recruitment, attendance, leave, performance, and payroll
- Control users, roles, and module access per tenant
- Give students and agents dedicated self-service experiences

## 1.2 Product modules at a glance

| Module                    | Purpose                                                         |
|---------------------------|-----------------------------------------------------------------|
| Marketing                 | Leads, campaigns, and marketing analytics                       |
| Student CRM               | Students, applications, visas, and CRM catalogue settings       |
| Agency CRM / Agent Portal | Partner ops for staff; referral & commission portal for agents  |
| Human Resource            | Employees, recruitment, attendance, leave, performance, payroll |
| Admin & Settings          | Users, roles & permissions                                      |
| Allied Services           | Quick links to ApplyUniNow family products                      |
| Applicant Portal          | Student self-service for applications, payments, and profile    |
| Super Admin               | Cross-tenant management (platform operators only)               |

# 2. Getting Started

---

## 2.1 Sign-in options

| Portal      | URL path | Who uses it                                         |
|-------------|----------|-----------------------------------------------------|
| Staff login | /login   | Admins, counsellors, marketers, HR, and other staff |

|               |                |                                                         |
|---------------|----------------|---------------------------------------------------------|
| Agent login   | /agent-login   | Agency partners and freelancers                         |
| Student login | /student-login | Applicants / students                                   |
| Registration  | /register      | New agent self-registration (subject to admin approval) |

## 2.2 First login checklist

1. Open the correct login page for your role.
2. Enter your email and password. Use *Forgot password* if needed.
3. Change your password when prompted (first-time or reset flows).
4. Confirm the modules visible in the left sidebar match your responsibilities.
5. Open **Notifications** ( /notifications ) to review unread alerts.

**Tip:** If a menu item is missing, your role may lack permission or the module may be disabled for your tenant. Contact your Global Admin.

## 3. User Roles & Access

Access is controlled by **role**, **permissions**, and optional **module access** settings. Tenants can also create custom roles.

### 3.1 Standard roles

| Role                         | Typical landing         | Primary access                              |
|------------------------------|-------------------------|---------------------------------------------|
| SUPER_ADMIN                  | Super Admin             | All tenants, audit, module toggles          |
| GLOBAL_ADMIN                 | Marketing / home        | Full access within a tenant                 |
| MARKETING_MANAGER            | Marketing               | Marketing manage; limited HR self-service   |
| COUNSELLOR                   | Marketing / Student CRM | Marketing view + Student CRM manage         |
| TELECALLER                   | Marketing               | Marketing + Student CRM view                |
| HR                           | Human Resource          | HR module                                   |
| AGENT /<br>AGENCY_FREELANCER | Agent Portal            | Agency portal; scoped student/referral data |
| STUDENT                      | Applicant portal        | Own applications, payments, profile         |

### 3.2 Permission model (summary)

- Module permissions such as *VIEW\_MARKETING*, *MANAGE\_STUDENT\_CRM*, *MANAGE\_AGENCY\_CRM*.
- Granular HR permissions (employees, attendance, leave, payroll, etc.).
- Tenant module switches decide whether Marketing, Student CRM, Agency CRM, HR, and Admin appear at all.

## 4. Marketing Module

---

Path: `/marketing`

Use Marketing to generate demand, nurture prospects, and hand qualified leads to Student CRM.

### 4.1 Lead Management

Path: `/marketing/lead-management`

- Create and update leads with contact details, source, and preferred programme information.
- Track status through the pipeline (for example New → Working → Converted / Lost).
- Rate interest (Hot / Warm / Cold) and assign counsellors.
- Log activities: notes, calls, email, SMS, WhatsApp, and meetings.
- Promote qualified leads into Student CRM when ready to start applications.

### 4.2 Campaigns

Path: `/marketing/campaigns`

- Plan and launch campaigns across email, SMS, WhatsApp, social, and PPC channels.
- Track campaign messaging and performance alongside lead intake.

### 4.3 Marketing Analytics

Path: `/marketing/marketing-analytics`

- Review channel performance, funnel metrics, and intake trends.
- Monitor student and agency funnels to spot conversion bottlenecks.

## 5. Student CRM

---

Path: `/student-crm`

Student CRM is the operational core for counselling teams managing applicants from enquiry through enrolment.

## 5.1 Student Management

Path: `/student-crm/student-management`

- Maintain student profiles, academics, and contact data.
- Capture study plans (country, university, course, intake).
- Link preferred universities/courses from the CRM catalogue.
- Manage checklists and supporting documents across process stages.

## 5.2 Applications

Path: `/student-crm/applications`

Track each university application through stages such as:

1. Draft
2. Documents pending
3. Submitted
4. Under review
5. Offer received
6. Accepted / Rejected
7. Visa process
8. Enrolled

Staff can upload documents, record offers, assign tasks, advance stages, and manage fees/payments.

## 5.3 Visa management

Path: `/student-crm/visa-management`

- Track visa status and checklist documents per student/application.
- Coordinate pre-CAS / I-20 and related milestones as applicable by destination.

## 5.4 CRM Settings

Path: `/student-crm/settings`

- Maintain catalogue data: countries, universities, courses, and industries.
- Keep form options aligned with ApplyUniNow university/course mappings.

## 5.5 Process checklist stages

Applications may also follow operational process stages, for example:

- Gathering checklist → University application → Financial evidence
- After I-20 / Pre-CAS → Visa → Pre-departure → On arrival → Pre-requisite

## 6. Agency CRM & Agent Portal

Path: `/agency-crm`

Staff use **Agency CRM** to manage partners. Agency users see the same module branded as **Agent Portal**, with navigation limited to their own data.

### 6.1 Screens

| Staff label           | Agent label             | Path                                           | Purpose                                  |
|-----------------------|-------------------------|------------------------------------------------|------------------------------------------|
| Dashboard             | Dashboard               | <code>/agency-crm/dashboard</code>             | KPIs and overview                        |
| Agency Management     | — (admin only)          | <code>/agency-crm/agency-management</code>     | Partner CRUD, status, onboarding control |
| Students & Referrals  | My Students             | <code>/agency-crm/agency-leads</code>          | Referrals and linked applications        |
| University Directory  | Universities            | <code>/agency-crm/universities</code>          | University directory / POC lookup        |
| Onboarding            | My Profile & Onboarding | <code>/agency-crm/onboarding</code>            | KYC docs, agreement, stage progress      |
| Communications        | Notifications           | <code>/agency-crm/communications</code>        | Activity log and admin broadcasts        |
| Co-branding Tools     | Referral & Branding     | <code>/agency-crm/co-branding-tools</code>     | Referral code and branding settings      |
| Commission Management | My Commissions          | <code>/agency-crm/commission-management</code> | Rules, commissions, statements, payouts  |

### 6.2 Partner onboarding stages

1. Registered
2. Documents submitted
3. Agreement signed
4. Verified
5. Approved
6. Active

### 6.3 Agent workflow

1. Register via `/agent-login` or `/register` (approval may be required).

2. Complete onboarding: upload KYC/business documents and sign the agreement.
3. Share your referral code / co-branded links to capture leads.
4. Track referred students and application progress under *My Students*.
5. Review commissions and statements under *My Commissions*.

Agents only see students and applications attributed to their partnership. Commission creation and status changes are admin-controlled unless explicitly granted.

## 7. Human Resources (HR)

Path: `/hr` (sidebar label: Human Resource)

| Screen             | Path                                 | Purpose                                                |
|--------------------|--------------------------------------|--------------------------------------------------------|
| Overview           | <code>/hr</code>                     | HR dashboard / entry point                             |
| My HR              | <code>/hr/me</code>                  | Employee self-service                                  |
| Employee Directory | <code>/hr/employee-directory</code>  | People records, roles, documents (offer, ID, contract) |
| Recruitment        | <code>/hr/recruitment-tracker</code> | Jobs, candidates, interviews, hiring pipeline          |
| Attendance         | <code>/hr/attendance</code>          | Clock-in / attendance tracking                         |
| Leave              | <code>/hr/leave-management</code>    | Leave requests, plans, and approvals                   |
| Performance        | <code>/hr/performance-reviews</code> | Reviews and KPIs                                       |
| Payroll            | <code>/hr/payroll</code>             | Payroll processing and payslips                        |

### 7.1 Typical hire-to-pay flow

1. Post a job and manage candidates in Recruitment.
2. Interview, select, and issue an offer letter.
3. Onboard the employee and store HR documents.
4. Track attendance and leave.
5. Run payroll and performance reviews.

## 8. Admin & Settings

---

Path: `/admin-settings`

### 8.1 Users

Path: `/admin-settings/users`

- Create and manage tenant users.
- Approve pending agents.
- Assign roles and activate/deactivate accounts.

### 8.2 Roles & Permissions

Path: `/admin-settings/roles-permissions`

- Review built-in roles and create custom roles where allowed.
- Grant module and HR capabilities carefully — least privilege is recommended.

## 9. Applicant (Student) Portal

---

Students sign in at `/student-login` and work in a dedicated shell (not the staff sidebar).

- **Applications** — view status and required documents
- **Payments** — pay fees (for example via integrated payment gateways)
- **Profile** — keep personal details current
- Accept policies when prompted before continuing

## 10. Allied Services

---

Path: `/allied-services`

Quick links to ApplyUniNow family and partner services, including:

- ApplyUniNow, ApplyUniLoans, ApplyUniHomes, ApplyUniJobs
- AUN Tech Consulting, AdminConnects, UniFeatures
- InternationalStudentVisas, AustraliaSkills, CanadaAdmits, and related services

## 11. Super Admin (Platform)

---

Path: `/super-admin`

Reserved for platform operators managing multiple tenants.

- Create and edit tenants

- Enable or disable modules per tenant (Marketing, Student CRM, Agency CRM, HR, Admin)
- Review audit logs

## 12. Common Workflows

---

### 12.1 Lead → Student → Application

1. Create or capture a lead in Marketing → Lead Management.
2. Qualify the lead with activities and counsellor assignment.
3. Promote the lead to Student CRM.
4. Create study plans and university applications.
5. Collect documents, submit, track offers, then advance to visa and enrolment.

### 12.2 Agency referral → commission

1. Agent completes onboarding and receives an active partner profile.
2. Lead or student is attributed via referral code / agency reference.
3. Application progresses; commissions may auto-generate on configured triggers (for example enrolled or visa approved).
4. Admin verifies commissions and processes payouts; agent reviews statement.

### 12.3 Student self-service payment

1. Student signs in to the applicant portal.
2. Opens Payments for outstanding fees.
3. Completes checkout; staff can verify payment status in Student CRM.

## 13. Support & Glossary

---

### 13.1 Getting help

- Contact your tenant **Global Admin** for access, role, or data questions.
- Platform / hosting issues: escalate to **AUN Tech Consulting**.
- API consumers can use the backend Swagger documentation at `/api-docs` (where enabled).

### 13.2 Glossary

| Term   | Meaning                                                        |
|--------|----------------------------------------------------------------|
| Tenant | An organisation instance of ONECRM with its own users and data |

|                |                                                                     |
|----------------|---------------------------------------------------------------------|
| Lead           | A prospective student captured in Marketing before conversion       |
| Application    | A university (or related) application record in Student CRM         |
| Agency Partner | An agent/agency organisation linked 1:1 to a user account           |
| Referral       | Attribution linking a lead/student/application to an agency partner |
| Commission     | Amount owed to a partner based on rules and triggers                |
| Module access  | Per-user VIEW/EDIT flags that control sidebar options               |
| RBAC           | Role-based access control — permissions granted via roles           |
